Airpak, Filter-Regulators: New FR95 to replace GFH60, GFH65 and GFH85 products

We just completed a week of WebCasts and conference calls to introduce the new FR95 filter regulator along with the exit strategy for the GFH60/65/85 regulators. If you missed one of these important sessions, you should immediately contact someone within your company who did attend for the details. For companies that didn't attend at all, your Regional Manager will be contacting you.
